Exhibitors are urged to carry all-risk floater insurance covering their materials against damage loss, and all other hazards from the time shipment is made prior to the show until shipments are received back after the show. This can generally be done by adding "riders" to existing insurance policies, often at no additional cost.

Teamwork assumes no responsibility for removal of containers with old empty labels, mislabeled or valuables stored inside containers while containers are in storage.

If the designated carrier fails to pick-up by the removal date of the Show, Teamwork reserves the right to route exhibit material by an alternate carrier. As a result of re-routing or handling no liability will be assumed by Teamwork.

FREIGHT FAQs & HANDLING HINTS

Delivery of your bills of lading to Teamwork Event Specialists does not signify that Teamwork Event Specialists has assumed responsibility for your shipments. Whenever possible, a member of your staff should remain with your shipment until it is actually picked up for removal from the loading dock, at which time the trucker assumes responsibility for your merchandise. In every case, be sure to turn in your bills of lading to the Exhibitor Service Desk. Do not leave bills of lading in your booth.

The information below is an outline of the most commonly asked questions regarding freight handling, often referred to as drayage. This can be the most costly part of exhibiting at conventions. We will try to explain what drayage is and how rates are established, which will help you save money by avoiding unnecessary surcharges.

What is "Freight Handling/Drayage"? - The term drayage is the moving of exhibit materials from one location to another. Whether you ship to Teamwork's warehouse or directly to show site, your materials still need to get to your booth location. Drayage services include the accepting of your material either at our warehouse or on show site, delivery to your booth, storage of empty containers during the show, returning empty containers at the close of the show, picking up your packaged materials, returning them to the dock and loading on the carrier of your choice.

Can I carry my own materials to my booth? - Any exhibitor may bring in his own materials providing that they can be hand carried by one person in one trip, without the use of dollies, hand trucks or any other equipment. If you choose to hand carry your exhibit you would not be permitted access to the loading dock area.

How are rates determined? - Drayage charges are based on a number of factors including Union labor rates, facility dock access, and the show schedule, to name just a few. Teamwork Event Specialists is a Union company and therefore must use Union labor to move freight. These rates can vary from city to city.

Tips on how you can save money - Read the Freight Handling section of your service kit carefully. Be aware of any surcharges that may be assessed for special handling or late shipments. Pay special attention to deadline dates. If you ship in advance to our warehouse and your shipment arrives after the published deadline date, you may be assessed a surcharge. Crated materials are the easiest to unload, therefore, have the least expensive drayage charge. Loose, pad wrapped and uncrated materials require more labor time and therefore may be assessed a special handling fee. It may be cost effective for you to build crates for any portion of your exhibit that is not crated.

How is the weight of my shipment determined? All drivers should attain certified weight tickets for materials prior to arriving at the dock either at the warehouse or at show site. Teamwork Event Specialists reserves the right to determine weights for all shipments for which weight tickets are not provided at the time of delivery. In cases where Teamwork Event Specialists weighs the shipment, the exhibitor will be charged for double handling.

Small shipments versus large shipments. - Most all Service Contractors have a minimum of 200 lbs. per shipment. It is best to send your freight as one large shipment versus several small shipments. For instance, if you send one 45 lb. and one 55 lb. package separately, you are charged the minimum on each shipment. If you are planning to ship items from various locations you may want to ship them all to a central location then forward them to the Service Contractor's warehouse and/or show site. If you ship your materials in one shipment and the carrier makes multiple deliveries to Teamwork, you will be charged for each delivery to our dock, regardless of whether or not the materials were shipped together as one shipment.

Advance shipments versus show site shipments. - In general it is best to ship your materials in advance to the "advance shipment" address. The charge for this may be slightly higher than shipping direct to show site but the benefit far outweighs the cost. You can (and should) confirm that we have received your materials well in advance of the show installation. If there is a problem it can be solved prior to the show. When shipping direct, if there is a problem there is seldom time to solve the problem prior to show opening.

Another advantage to advance shipments is that your materials will be in your booth when you arrive and you can begin installation immediately, thus saving you time and frustration at show site.

Should I insure my exhibit? - The answer is YES! It is your responsibility to make sure your freight is insured from the time that it leaves your office until it returns. A rider to your existing policy can usually do this. Check with your insurance carrier for details.

Two of the most expensive mistakes made by exhibitors are: 1) shipping materials in several shipments, or 2) shipping via UPS or similar carriers that split a single shipment into several deliveries to our dock. Both can be very costly. Remember, each delivery incurs a minimum charge.

Always be aware of freight receiving deadlines. You will be assessed a late charge if your shipment arrives after the deadline date. Inform your shipper that all items must arrive prior to a specific date.

Always ship your materials crated - Loose or pad wrapped items are assessed special handling fees.

Make sure all materials are labeled properly to avoid any delivery delays. All pieces should have the recipient's name and address, the show name, your company name, and your booth number. Remove old labels after every show to avoid any future confusion. If you are shipping multiple pieces, label them as such: 1 of 4; 2 of 4; 3 of 4; 4 of 4, etc. We hope this helps you in budgeting for your material handling costs.
